

# MD RAKIB HASAN

An aspirational graduate in Soil, Water, and Environment from the University of Dhaka, with 4 years of expertise in data analysis and 2+ years of interdisciplinary research. Passionate in using data-driven insights to address pressing social and environmental challenges, including water quality, public health, and sustainable development. Experienced in community engagement through 1.5 years of volunteer work, collaborating with local stakeholders to design actionable solutions in water quality.

## Contact Information

- Dhaka, Bangladesh
- in/rakibhhrido
- /rakibhhrido
- +8801875545062
- www.rakibhhrido
- rakibhhrido@yahoo

## Areas of Expertise

### SOCIAL IMPACT RESEARCH

- Environmental Health Risk Assessment
- Public Health Hazards Monitoring
- Ground & Surface Water Quality
- Variable Impact Monitoring

### DATA FOR DEVELOPMENT

- Real Time Monitoring (ArcGIS+Python)
- Remote Sensing (Google Earth Engine)
- Data analysis (Python, R, SQL)
- GIS Mapping (ArcGIS, QGIS)

### SUSTAINABILITY & RESILIENCE

- Disaster Risk Assessment & Monitoring
- Climate Adaptation Workflow
- Resource Management

### PROJECT MANAGEMENT

- NGO Program Coordination
- Grant Reporting Monitoring & Evaluation (M&E)

### COMMUNITY ENGAGEMENT

- Stakeholder Collaboration
- Participatory Research
- Fieldwork

### ADDITIONAL TECHNICAL SKILLS

- Communication & Presentation
- Data Handling (Pandas, Numpy)
- CI/CD Tools (Docker, Kubernetes)
- Machine Learning (TensorFlow, PyTorch)

## Certification

- Google IT Support Professional
- Google IT Automation With Python
- Google Cloud: Cloud Architect
- Mathematics for Machine Learning
- DataOps with Apache Iceberg using Spark, Nessie, and Dremio

## Educational Qualification

- BSc in Soil, Water And Environment, University of Dhaka** Jan 2020- Feb 2025  
CGPA: 3.62/4.00;  
Research Project: Health Risk Assessment from Heavy Metals in Dried Fish of Dhaka.
- Higher Secondary Certificate (HSC)** Graduated in 2019  
Letter Grade: A (Science), Government Bangla College
- Secondary School Certificate (SSC)** Graduated in 2017  
Letter Grade: A+ (Science), Lalmatia Housing Society School & College

## Professional Experience

- Atomic Energy Center; Bangladesh Atomic Energy Commission**  
Research Associate Mar 2024 - Nov 2024
  - Developed and deployed deep learning models using TensorFlow and Scikit-Learn for water quality forecasting, enhancing environmental monitoring of the Turag, Buriganga, Shitalakshya, Dhaleshwari, and Balu rivers.
  - Analyzed water pollution dynamics and documented findings in 7+ study, contributing to 10+ journal articles.
- Department of Soil, Water And Environment, University of Dhaka**  
Research Associate Mar 2023 - Nov 2024
  - Led 15+ analytical chemistry and deep learning projects to assess the impact of soil, sediment, and water quality on human health, analyzing over 500 samples across the Gangetic Delta.
  - Used 5+ mathematical and statistical approaches to improve soil organic carbon (SOC) model accuracy by 15%.
  - Contributed to 7+ peer-reviewed journal articles on analytical and AI-driven solutions for environmental sustainability.

## Project

- Water Quality Modeling Using Enhanced CNN, RNN, LSTM, GRU of Turag**
  - Analyzed Turag River water and developed a novel method for modeling dissolved oxygen (DO) and biological oxygen demand (BOD) using stacked CNN, RNN, LSTM, and GRU under atomic energy center project.
  - Deep learning models outperformed machine learning models, improving accuracy by 3.88%, reducing errors by 7.41%, and increasing reliability by 95.56%.
- Ground Water Arsenic Pollution Modeling Using Ensemble Techniques**
  - Analyzed groundwater from 909 wells to assess Arsenic pollution and developed a novel ensemble technique using multi-scalar data fusion (soil, climatic, anthropogenic, satellite imagery) for prediction.
  - The approach is expected to improve prediction accuracy by 5-10% compared to traditional deep learning models.
  - Collaborated with Dr. Anwar Zahid\* from the Institute of Water Modeling, BWDB on the project.

Extracurricular Activities

Section Leader (SL)  
**Stanford University**  
**Code In Place Programme (CIP 2025)**

Vice President (Technical)  
Silica Lab  
**Geo-Biome Society,**  
**University of Dhaka**

Runnersup in Dhaka Division  
**BCB Young Tigers Cricket (2017)**

Interpersonal Skills

**Languages**  
English (Fluent), Bengali (Native), Hindi

**Communication Skills**  
Expert in communication with senior leadership and decision-making teams.

Programming Languages

Python	4Y
R	3Y
SQL	3Y

Dashboarding

Tableau	2Y
PowerBI	2Y
Google DataStudio	3Y

Data Handling

Pandas	4Y
Numpy	4Y
Scipy	3Y

Machine Learning

Scikit-Learn	4Y
TensorFlow	4Y
Pytorch	2Y

App Development

Django	1.5Y
Flask	1.5Y

Project

**Heavy Metal Contamination and Health Risk Assessment in Dhaka’s Rivers**

- Led a team to analyze seasonal heavy metal concentrations (Cr, Ni, Cu, As, Cd, Pb) in water/sediments across 5 Dhaka rivers (Buriganga, Shitalakshya, Balu, Turag, Dhaleshwari) under supervision of Dr Yeasmin Nahar Jolly\*.
- Identified Pb and Cu as primary pollutants, with winter concentrations exceeding WHO/USEPA limits by up to 300% due to reduced runoff.
- Quantified ecological and health risks using advanced indices (Igeo, PLI) and Monte Carlo simulations, revealing moderate-to-high carcinogenic risks from Pb/As via ingestion/dermal exposure.

**Soil Organic Carbon Dynamics Of Ganges Basin Delta By Deep Learning**

- Collected Soil Samples from Sundarbans, Moribund, Mature & Active Delta of Ganges Basin of Bangladesh, analyzed physico-chemical characteristics under the supervision of Dr Md Jashim Uddin\*.
- The soil organic carbon analyzed from the lab was then mapped with satellite-imageries and historical weather data of 32 years and feed into Ensemble Deep Learning Model to predict soil organic carbon sequestration.
- The inter-relationship of variables was analyzed and findings are being compiled into a manuscript.
